RE: CSW 2020 Distance Learning/Virtual Model

[CSW 2020 – Distance Learning/Virtual Model ASL](#)

[CSW 2020 Registration](#)

Dear CSW Participants,

With the ongoing challenges and restrictions we are facing in relation to COVID-19, we have had a lot of discussion about how or if to proceed with CSW this summer. After much reflection, we feel that the skills and professional development gained by this workshop are invaluable, and we would prefer to offer it in some fashion even if it means some modifications.

For the summer of 2020, CSW will be held remotely via an online Learning Management System as a mix of recorded modules and live remote classroom instruction. We plan to offer more class options, additional topics, and an extended window of time to complete at least 52 hours of training. Continuing education credits will be applied for and you will receive your certificates and SWAG/Goodies in the mail upon completion of 52 hours. All hours will have to be completed before August 1st.

We will be reducing the registration fee for this summer from \$100 to \$25. If you are interested and have already paid we will reimburse the difference, or it can be applied as a credit towards next year's CSW when we plan to return to the full immersion model. If you have not registered or paid there will be no late fee and you will have until July 1st to do both.

We will send further instructions and information as it becomes available. We look forward to you joining us this year, and appreciate your flexibility and dedication as we navigate these uncharted waters.

Sincerely,

Wess Smith
