

Number the Stars
Chapter 4

Listen to your teacher as she reads a book about how people use quilts as codes to escape slavery. Think about how the quilts were *hidden in plain view*, just like how many Jewish children were *hidden in plain view* during 1943 in Denmark. Papa hid Ellen in plain view by pretending she was his daughter.

Think about the two stories. How are they alike? How are they different? Discuss with your classmates as you make text to text connections.

Complete the T-chart to show your thinking. Use text evidence to support your thinking.
