

Name:

Sadako and the Thousand Paper Cranes

By Eleanor Coerr

Chapter Five
Setting – The hospital

Directions: Sadako is in the hospital at the end of chapter four and for the entirety of chapter five. Before, during, and after reading analyze the setting and explain how it changes. At the end of the chapter, think about the ways Sadako’s setting changes and the hope she has as a result of her setting changing.

Before reading describe Sadako’s experience in the hospital so far.

During reading describe Sadako’s experience in the hospital and how it has changed from the beginning of the chapter. *(Think about Sadako’s first crane)*

After reading describe Sadako’s experience in the hospital and how it has changed even more. *(Think about Sadako’s plans for 1,000 cranes)*

How do the changes in Sadako’s setting offer hope when it’s hard for Sadako to be in the hospital?
